

MONTHLY REPORT

25X1

PAR 213

31 Mar 65

SUBJECT: Color Reproduction Systems Review

TASK/PROBLEM

1. In view of the recent importance attached to color photography by the intelligence community, investigate and determine the most suitable means to reproduce and utilize multiple copies of color materials. Determine the most suitable reproduction system and types of equipment to be used in all phases of the reproduction cycle. Also, attempt to define how color photography can best be utilized by the photo interpreter.

DISCUSSION

2. A meeting with the customer representative on 18 March 65 provided additional guidance as to what is desired in the final report. Of particular interest is the inclusion in that report of technical data applicable to briefing materials.

3. Briefing aids were also covered at the 18 March 1965 meeting. The representative requested that demonstration or sample items be provided to complement briefing boards. This request requires some specific guidance for particular briefing topics, and it was agreed that this would be supplied by the customer.

PLANNED ACTIVITIES

4. Complete the final report before the end of May, including the information requested at the meeting of 18 March 1965.
